

Pommel horse

1406104

This Top Competition SPIETH product is FIG certified and is praised for its stability and wearproof quality. The newly developed rubber compound pommels provide an excellent grip under all circumstances, requiring less magnesia. The rigid wooden body, covered with carefully chosen foam and first-class chrome leather offers a comfortable firm touch and the right amount of stability at all times. The pommel horse comes with a built-in transport system for easy manoeuvring and a galvanised Y-shaped fixation chain and tension swivel.

New compound Reuther pommels

Safety padding 1566064

Technical data:

Reference number:	1406104
Height:	adjustable from 95-125 cm with 5 cm increments

Pommel training

The high-quality pommel horse is stable, durable and has a splendid grip. For senior competitions and training this is definitely the best pommel horse available. As pommel training is the most difficult one and requires many hours of training, SPIETH has developed a complete line of special junior and methodical equipment which will reduce the learning time considerably and helps young gymnasts to practise with the right body posture.

Pommel pad: 1407071

Junior pommel horse: 1407068
