

Tumbling Track "Moscow" with Springs 18 m

1790760

For solutions which do not allow a complete free exercise floor, we have designed a track of about 18 m length (the diagonal of a full competition free exercise floor).

- Composed of 15 sections of 120x200 cm. Width of the track is about 2 m.
- Including the new foam combination of the Moscow floor :
 - easy to connect puzzle shaped foam plates of 5 cm.
 - covered by floor mats of 1800x200x2 cm with soft dynamic foam.
 - fixation straps and 2 white Velcro demarcation strips + 1 central line.
- The rebound characteristics are comparable to the 'Moscow' floor, but as this is a diagonal only, the floor feels softer.
- This floor is also often used as a tumbling strip in training halls.
- Anti-rotation kit included to avoid movement of the complete track.

Tumbling track without the side flaps

New springsystem

Technical data:

Reference number:	1790760
Length:	18 m (total length of the sections 18m)
Width:	2 m
Rebound:	Comparable to the Moscow floor
Absorption:	Comparable to the Moscow floor
Total surface:	36 m ²
Height:	20 cm

Highlights

- New "Springs & Security System" guarantees an optimal rebound
- High performance base with tension straps to lock the sections
- High quality foam layer for a fast response and the best landing comfort
- Height 20 cm for a perfect integration in training halls
- Suits for all ages and levels of gymnasts
- Perfectly connectable with our Moscow floor.

Tumbling Track "Moscow" with Springs 18 m

1790760

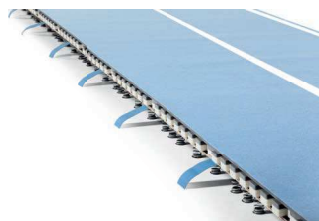

Training a group of gymnasts means working many hours per week on a variety of different elements as gymnasts have different ages, abilities and requirements.

Equipping your hall with apparatus specially designed for training seems therefore a logical measure.

The versatile training equipment offered by Janssen-Fritsen has been developed together with world-renowned coaches and is continuously being tested in the daily practice of training halls worldwide.

- This new tumbling track has been developed on the bases of the new FIG-certified free exercise swing floor Moscow.
- With a secure spring system for better dynamic and comfort.
- Using a special foam cover with puzzle shaped elements side flaps.
- White demarcation tape and assembly instructions included.
- The length is 18 m: exactly the measurement of a artistic acrobatic diagonal.
- This Tumbling track is also available in other lengths.
- It is perfectly combined and adjustable with the new Moscow spring floor.

Under construction available in various sizes (multiples of 120 cm).

Option:

A full transport system for a safe transport and storage.
Composed of:

- Transport trolley for the wooden plates + a box for all the small assembly elements (1590050)
- Transport trolley for the foam (1522178)
- Transport trolley for the top layer (1590055)

Fast fixation kit: (2203440)

System of fixing strips for a perfect stability.
3X this article is required for a tumbling track.
Picture not available.

Also available in other lengths:

1790762 12 meter
1790770 14 meter

Packing dimensions:

1 Pallet 210x125x215 cm
1 Pallet 80x125x215 cm
Total weight: 704 kg
Total volume: 7 m3
